

# Vigpil C12C

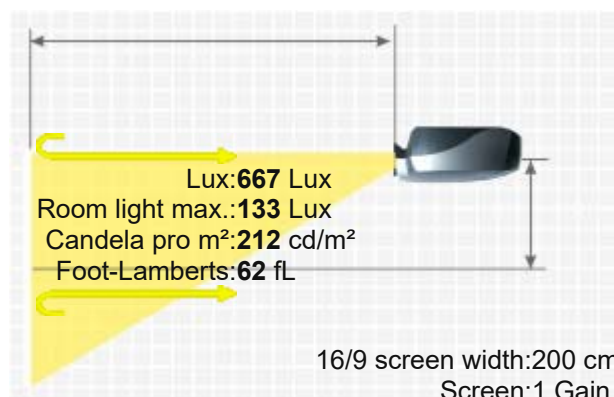

VIGPIL C12C

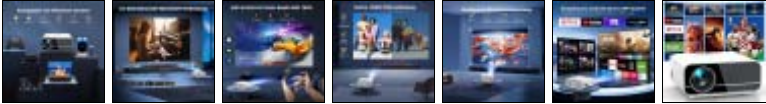

The Vigpil C12C LED LCD projector has 1500 Ansi lumens, a contrast of 25000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Horizontal and vertical keystone correction makes image adjustment childs play. As Vigpil specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. 393 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 262 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. Since the projector optionally recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector.

## Brief Introduction Beta 2.5
