

Giaomar Vigpil Full HD Beamer

GIAOMAR VIGPIL FULL HD BEAMER

Brief Introduction

Beta 2.5

The standard portable Vigpil Full HD Beamer LED LCD projector from Giaomar has 450 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 100,000 hours, which is over 68.5 years if enjoyed for four hours a day. An image width of up to 216 cm is possible as the projector has 450 Ansi lumens. However, if room light is available, the picture should be max. 144 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector.
