

VQP-1000L

DIGITAL PROJECTOR

Larger than life images - Project images up to 100" in size

Project images larger than life. With VisionQuest projector technology you can create images up to 100" in size. Only VisionQuest projectors use V-Bulb technology which allows for longer lasting bulbs that are also economical to replace, saving hundreds of dollars over the life of the projector. Create your own little movie theater or use the VQP-1000L for presentations.
