

# Vivitek D8010W

The Vivitek D8010W BrilliantColor DLP projector has 8000 Ansi lumens, a contrast of 3000:1 and a WXGA 1280 x 800 resolution. The integrated lens shift gives freedom when positioning the projector. 8000 Ansi lumens ensure that a picture width of 909 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 606 cm. The projector can also play 1080P without any problems. The model built in 2013 is no longer offered by Vivitek.
