Connections

With the DX813, manufacturer Vivitek offers a DLP projector with XGA 1024 x 768 resolution and a contrast of 15000:1. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. 3600 Ansi lumens ensure that a picture width of 523 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 349 cm. Furthermore, the projector can play 1080P without any problems. The model was built by Vivitek in 2014 and is no longer current.
