

Vivitek KU5510L

VIVITEK KU5510L

The Vivitek KU5510L 3D Laser BrilliantColor DLP projector has 5500 Ansi lumens, a contrast of 2500000:1 and a WUXGA 1920 x 1200 resolution. The service life is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. 753 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, max. 502 cm is recommended here. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals and 3D are no problem for the projector. It was launched on the market in 2018 and is no longer offered by the manufacturer Vivitek.
