

Vivitek Qumi Q7 Lite

VIVITEK QUMI Q7 LITE

Brief Introduction

Beta 2.5

A brief introduction to the Vivitek Qumi Q7 Lite. The DLP LED projector has a WXGA 1280 x 800 resolution and a contrast of 30000:1. The manufacturer Vivitek specifies a service life of 30000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. The projector can illuminate a picture width of up to 269 cm thanks to its 700 Ansi lumens. In room lighting, however, the picture width should ideally be less than 179 cm. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. The projector can also play 1080P and 3D without any problems. The model built in 2015 is no longer offered by Vivitek.
