

# Vivitek DU8193Z

VIVITEK DU8193Z

A brief introduction to the DU8193Z: The Vivitek 3D laser DLP projector offers 12000 Ansi lumens, a contrast of 100000:1 and a WUXGA 1920 x 1200 resolution. The lifetime is 20000 hours due to the laser, which is over 13.7 years with a daily viewing of 4 hours. The projector also offers a lens shift function that makes image adjustment childs play. An image width of up to 1113 cm is possible, if the image width is smaller (we recommend max. 742 cm), rooms with residual light are also no problem. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Video signals 1080P and 3D are also no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. The model was built by Vivitek in 2017 and is no longer current.

1 x 0,67" DLP Chip  
WUXGA 16/9 Ti Digital Light Processing Chip

Projector	12000	Screen	5333 Lux (bei 200 cm Screen)
