

VOPLLS K3

VOPLLS K3

Manufacturer VOPLLS offers the K3, an LCD LED projector with HDTV 1920 x 1080 resolution. Manufacturer VOPLLS specifies a lifespan of 30,000 hours, which equates to over 20.5 years of use at four hours per day. Built-in horizontal and vertical keystone correction provides flexibility when setting up the projector. With a brightness of 400 ANSI lumens, an image width of 203 cm is possible. In room lighting, the image should be no wider than 135 cm. The projector supports AirPlay and Miracast screen mirroring, allowing for direct playback of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. Additionally, the Bluetooth capability is a useful feature for the projector, particularly for wireless audio transmission. Furthermore, the projector can play 1080p and 4K (compressed) without any issues.
