

# VOPLLS M03H

VOPLLS M03H

The M03H LED LCD projector from VOPLLS has 450 Ansi lumens, a contrast of 12000:1 and an HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector is specified with a light life of 100,000 hours, which converts to over 68.5 years at 4 hours per day. The integrated media player allows files to be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of 216 cm well. However, if there is room light, the picture width should ideally not exceed 144 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Playing 1080P is also no problem for the projector.
