

# Wanbo Dali 1

WANBO DALI 1

The Wanbo Dali 1 LED LCD projector has 350 ANSI lumens, a contrast ratio of 2000:1, and HDTV 1280 x 720 resolution. The manufacturer Wanbo specifies a service life of 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. The ambient light sensor allows the projector to automatically optimize the projected image. The projector also offers an integrated media player that allows files to be played directly. The projector can illuminate a screen width of 190 cm well. However, if there is ambient light in the room, the image width should not exceed 127 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible. Compared to others, the projector is very quiet with an operating noise of 30 decibels.
