

# Wanbo T2 Max

WANBO T2 MAX

A brief introduction to the T2 Max: The Wanbo Game-Portable LED LCD projector offers 250 Ansi-Lumen, a contrast of 2000:1 and a HDTV 1920 x 1080 resolution. It is an LED projector with 20000 hours of light life, which converts to over 13.7 years at 4 hours of daily use. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The projector also offers an integrated media player that can be used to play files directly. 250 Ansi lumens ensure that a picture width of 161 cm is also possible. However, if there is room light, the picture should be a maximum of 107 cm wide. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. It is also Full HD 1080P and 4K (compressed) compatible. At just 29 decibels, the device is one of the quieter projectors.
