

Wanbo TT

WANBO TT

Brief Introduction

Beta 2.5

With the TT, manufacturer Wanbo offers an LCD LED projector with HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. Thanks to the ambient light sensor, the projector can automatically optimize the projected image. The integrated media player allows files to be played directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 650 Ansi lumens, a picture width of 259 cm is possible. In room light, the picture should be max. 173 cm wide. The projector has screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. It is also Full HD 1080P and 4K (compressed) compatible. With an operating noise of just 29 decibels, the model is already very quiet compared to others.
