

Wanbo X5 Pro

WANBO X5 PRO

Top

A brief introduction to the X5 Pro: The Wanbo standard portable LED LCD projector offers 1100 Ansi-Lumen and a HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 20000 hours, which is the equivalent of over 13.7 years at 4 hours per day. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate a picture width of up to 337 cm thanks to its 1100 Ansi lumens. In room light, however, the picture width should ideally be less than 225 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. The integrated Google Assistant turns the projector into a voice control center, allowing you to search for movies, control your smart home devices and much more. The projector has Airplay, Miracast Screen Mirroring support, which enables direct playback of high-resolution videos and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. The model is also Full HD 1080P and 4K (compressed) compatible. With only 26 decibels of operating noise, the model is already very quiet compared to others.

Brief Introduction Beta 2.5
