

Wemax S5 Smart

Brief introduction to the Wemax S5 Smart. The micro-portable LCD laser projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 1500:1. The manufacturer specifies a laser life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. An image width of up to 254 cm is possible, as the projector has 625 ANSI lumens. However, if there is room lighting, the image should be no more than 169 cm wide. Thanks to Google TV, the projector can be conveniently controlled by voice command. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also Full HD 1080P compatible. With an operating noise of only 30 decibels, the model is very quiet compared to others.
