

Wimius Q2

WIMIUS Q2

The Q2 LED DLP projector from Wimius has 150 ANSI lumens, a contrast ratio of 15000:1 and a WSVGA 960 x 540 resolution. Thanks to the LEDs, the projector has a light life of up to 40,000 hours, which is over 27.4 years when used for four hours a day. A picture width of up to 124 cm is possible because the projector has 150 ANSI lumens. However, if there is ambient light, the picture should be no wider than 83 cm. Thanks to the built-in 3400 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The integrated Android TV software provides direct access to a wide range of streaming services such as Netflix, Disney+, Amazon Prime Video, and YouTube, as well as games and other interactive content. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, the Bluetooth function allows the projector to be flexibly paired with other speakers. Even 1080P playback is no problem for the projector. Projection onto the ceiling is also possible thanks to the 360° projection.
