

Wimius Q3

WIMIUS Q3

Top

The micro-portable Q3 LED DLP projector from Wimius has 1380 Ansi lumens and an HDTV 1280 x 720 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years if enjoyed for four hours a day. As Wimius specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 377 cm is possible, as the projector has 1380 Ansi lumens. However, if room light is available, the image should be max. 251 cm wide. Thanks to the built-in 8000mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. It is also Full HD 1080P compatible.
