

Wolf Cinema PRO-95

WOLF CINEMA PRO-95

The Wolf Cinema PRO-95 model is a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast of 120000:1. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 50 cm away from the screen. The model offers a microphone jack plug and 16W speakers, so no additional audio devices are required for presentations or training courses. Even 1080P video signals and 3D are no problem for the projector. At just 30 decibels, the device is one of the quieter projectors. On the market since 2018, the model is no longer offered by the manufacturer Wolf Cinema.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" Dark DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 4000 Screen 1778 Lux (bei 200 cm Screen)
