

Wolf Cinema TXF-850 MK II

WOLF CINEMA TXF-850 MK II

The Wolf Cinema model TXF-850 MK II is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 100000:1. The service life of the laser is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. 2500 Ansi lumens ensure that a picture width of 508 cm is also possible. However, if room light is available, the picture should be a maximum of 339 cm wide. Video signals 1080P and 4K as well as 3D are also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector. With only 28 decibels of operating noise, the model is already very quiet compared to others.
