

Wolfgang WP03

Brief introduction to the Wolfgang WP03. The micro-portable LCD LED projector has HDTV 1920 x 1080 resolution and a contrast ratio of 20000:1. The manufacturer specifies an LED service life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. Files can be played directly using the integrated media player. A built-in horizontal and vertical keystone correction provides freedom when setting up the projector. 600 ANSI lumens ensure that an image width of 249 cm is possible. However, if there is ambient light in the room, the image should be no wider than 166 cm. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, Bluetooth is a useful addition to the projector, especially for wireless audio transmission. Even 1080P and 4K (compressed) video signals are no problem for the projector. The operating noise of only 25 decibels makes the projection quiet.
