# XGODY GIMBAL5

## Brief Introduction

Beta 2.5

With the Gimbal5, manufacturer XGODY offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 1500:1. Due to the LEDs, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. The integrated media player can play files directly. The projector can illuminate images up to 176 cm wide thanks to its 300 Ansi lumens. In room light, however, the picture width should ideally be less than 117 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Even 1080P and 4K (compressed) video signals are no problem for the projector. The operating noise of just 25 decibels makes the projection quiet.
