

XGODY Gimbal N6

XGODY GIMBAL N6

The Gimbal N6 at a glance: The XGODY 3D LED LCD projector offers 300 ANSI lumens, a contrast ratio of 15000:1, and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The projector can illuminate up to 203 cm of image width thanks to the 300 ANSI lumens. However, in room light, the image width should ideally be less than 135 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another notable extra is that the projector can be connected to external wireless speakers via Bluetooth. The projector can also play 1080P and 4K (compressed) as well as 3D, meaning that it can recognize all currently available Blu-ray formats.
