

XIDU S31

XIDU S31

With the S31, manufacturer XIDU offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 25000:1. The LEDs have a service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. A built-in horizontal and vertical keystone correction provides freedom when setting up the projector. The brightness of 1500 ANSI lumens allows for an image width of 389 cm. In room lighting, the image should be a maximum of 259 cm wide. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.

Brief Introduction Beta 2.5
