The game portable XV30 LED LCD projector from XuanPad has 480 Ansi-Lumen, a contrast of 15000:1 and a HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 480 Ansi lumens, a picture width of 223 cm is possible. In room light, the image should be max. 149 cm wide. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P compatible.
