

Yamaha DPX 1000

YAMAHA DPX 1000

Brief Introduction

Beta 2.5

The Yamaha DPX 1000 DLP projector has 800 Ansi-Lumen, a contrast of 1500:1 / 2700:1 with Iris and a HDTV 1280 x 720 resolution. The projector also offers a lens shift function that makes image adjustment childs play. 287 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 191 cm. It is also Full HD 1080P compatible. The operating noise of just 30 decibels makes the projection quiet. The projector was launched in 2002 and is no longer sold by the manufacturer, but is still a very popular projector.
