

# Yoton Y200

YOTON Y200

The Game-Portabel Y200 LED DLP has 150 Ansi lumens, a contrast of 2000:1 and a WVGA 854 x 480 resolution. The lifespan of the LEDs is 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. An image width of up to 124 cm is possible as the projector has 150 Ansi lumens. However, if room light is available, the image should be max. 83 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. As the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P without any problems.
