ZCGIOBN A12AB

Brief Introduction Beta 2.5	A brief introduction to the ZCGIOBN A12AB. The LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 10000:1. The manufacturer specifies an LED lifespan of 50000 hours, which is over 34.2 years at four hours of use per day. Horizontal and vertical keystone correction makes it easy to set up the image. A screen width of up to 359 cm is possible because the projector has 1250 ANSI lumens. However, if there is room light, the image should be no more than 239 cm wide. Google TV turns the projector into a smart entertainment center with countless features. Even 1080P video signals are no problem for the projector.
